

BAR B

Queen Street BMW

The Bar B BMW is one of the most exciting cars to ever enter the Hi Tech Import /Auto Salon show scene. Along with the Pac performance Mazda they have raised the bar to new heights in this scene. Considering the BMW looks like a race car there is much more to this car when you look at the detail, great interior and sensational stereo and DVD gear.

The House of Kolor paint is extraordinary winning top paint at its debut show at Sydney Auto Salon. Make sure you catch this ground-breaking car at shows or on the strip and spend a bit of time studying the attention to detail and great use of colour.

Specs are as follows:

PREPARATION

Body was all bare metal, mainly new panels on the outside and hand made floor, firewall, inner boot panels etc. All panels were etch primed, then several coats of two pack primer filler. After curing the body was sanded with 360 and finished with 600.

COLOUR

The complete body shell inside and out received 3 coats of white base (BC 26) to enhance the striking 4 coats of Hot Pink Pearl (PBC 39). The Hot Pink Pearl was chosen by Mohammed, for it's sensational brightness which can only be achieved with House of Kolor's extraordinary range. This was then sealed with 3 coats of Urethane Flo Klear (UFC 01). After several days curing the Queen Street boys sanded it back with 800 ready for Big D to do his thing.

GRAPHICS

The fabulous graphics by Big D were then completed using:

SG 101 Lemon Yellow
SG 105 Blue Blood
PBC 36 Trublue Pearl
PBC 32 Tangelo Pearl
PBC 40 Violette Pearl
NE 507 Green Neon

CLEAR COAT

Upon completion of the graphics they were coated with 3 coats of Flo Klear (UFC 01) to lock in and seal the striking paint job. The whole car was once again sanded with 800 removing all raised edges from the graphics and 3 coats of Flo Klear (UFC 01) applied for the final time.

POLISHING

After a light sand with 1500 to remove any orange peel, buffing and polishing was completed using Meguiars Diamond Cut M85 in conjunction with a W4000 wool pad. To achieve a show winning finish Diamond Cut M85 with W7000 foam cutting pad, Speed Glaze M80 with W8000 foam pad and finishing off with random orbital buffing machine with W8006 foam polishing pad with Meguiars Gold Class wax (G7016) was used. Up keep of this show standard finish is with Gold Class wax or Meguiar's Quik Detailer (A3316) by hand.

The Flo Klear used flows out to great finish off the gun or it can be easily buffed and polished to a superb show finish.
